Dr. Lorena Russell will be leading the discussion of Mrs. Dalloway by Virginia Woolf. Mrs Dalloway, published in 1925, details a day in the life of Clarissa Dalloway, a fictional high-society woman in post-First World War England. One of Woolf’s best-known novels, it is created from two short stories, “Mrs. Dalloway in Bond Street” and the unfinished “The Prime Minister,” and addresses Clarissa’s preparations for a party she will host that
evening. With an interior perspective, the story travels forward and back in time, in and out of the characters' minds to construct an image of Clarissa's life and of the inter-war social structure. In October 2005, Mrs. Dalloway was included on *Time*'s list of the 100 best English-language novels written since 1923.
