Breast & Cervical Cancer Control

North Carolina

Mother for Life

A Healthy Detection

Make Easy of Me.

Daughter
What is cancer? It is a group of diseases in which body cells grow out of control and spread to other parts of the body.

What services are offered?
- Breast and cervical cancer screening
- Diagnostic testing
- Mammograms (if age appropriate)

Who is eligible?
Women are eligible if they meet all of the following criteria:
- 25% or more of the federal poverty level
- Have a household income at or below
- Are 40-64 years old
- Are uninsured or underinsured, and
- Are eligible for BCCP services.

What you should know:
- Cancer is the number one cause of death among women in the United States.
- Cancer is often diagnosed too late when it is more difficult to treat.
- Early detection of cancer increases the chance of survival.
- Regular screenings for breast and cervical cancer can be done through BCCP.
- To find your county BCCP provider, call (919) 720-3500 or visit their website.

Website: www.bccp.nc.gov

History:
- Breast and cervical cancer are the most deadly cancers among women.
- Early detection and treatment can save lives.
- Regular screenings are essential.

The North Carolina Breast and Cervical Cancer Control Program (BCCP) provides:
- Regular screenings for breast and cervical cancer
- Services to eligible women in North Carolina
- Regular screenings and follow-up for women who are uninsured or underinsured.

What to do:
- Get screened regularly.
- Talk to your doctor about routine screenings.
- Take control of your health.
- Early detection is key.

All women should get:
- Breast cancer screenings.
- Cervical cancer screenings.

Your best protection:
- Early detection.
- Regular screenings.

The good news is that you:
- Can get breast cancer.
- Can get cervical cancer.
- Can do something about it.
- Can reduce your risk.
- Can improve your chances of survival.
- Can control your health.
- Can take control of your life.

Any woman can get breast cancer.
